

Charity Euchre Tournament Rules

- A round consists of each player dealing twice around the table (8 hands). The score is recorded after the 8 hands. Teams may go over or not even reach 10 points. Point totals will be posted after each round.
- You will be given a number when you arrive at the tournament. It will be a Swiss Draw pairing method which means like scores will be paired against each other.
- Cheating will not be tolerated. If you are caught cheating you will be asked to leave and a staff member will step in.
- If you play the wrong suited card while having the correct suit in hand and it is pointed out by the other team, the team pointing out the mistake receives 2 points and the that ends the hand.
- Each time you go alone and make 4 points you will receive a ticket for the Chinese auction.
- If a player claims a hand by laying down his/her cards and a way is shown for the hand to not be made the hand is considered a euchre with appropriate points scored.
- A dealer is not obligated to call trump if it is passed around to him/her. The deal is passed to the next player. The hand is not replayed and counts as one of the 8 played for the round.
- A player may not order up trump if the only trump that would be in his/her hand is the left bower.
