

# THE PENWHEEL

Volume 64: 2011-2012

Shadow Lake Golf Club

Tuesdays: 12:15—1:30

*The Penwheel*

*Reporter: Jack Best*

*August 2, 2011*

The club meeting started a few minutes late due to a schedule mis-understanding at Shadow Lake. But when they came, the fries were hot, the pulled “was it chicken or pork” was tasty, the mixed vegetable salad was a dietitian’s delight and the program was worth waiting for!

LINDA KOHL led The Pledge and NORMA WEBER read a special invocation in honor of deceased member JOHN TURNER. John’s memorial service will take place at Penfield First Baptist Church this coming Saturday morning at 11:00 AM.

KATHLEEN COVELL, from the downtown Rochester Rotary Club, visited our club again. Mike Mancuso came at the invitation of JACK BEST. Mike works with the Lawley Insurance Agency and specializes in fringe/medical benefits planning.

Club members serenaded President-elect CHRISTIAN PAPPAS with Happy Birthday. Christian learned today that members “round up to the next dollar” their annual birthday contribution of \$.10/year.

## **NOTE CAREFULLY THE AUGUST SCHEDULE:**

- August 9: No lunch meeting at Shadow Lake.

MIKE WHITTEMORE: \$5: enjoyed cooking hot/hamburgers at last week's picnic

GEORGE GRAY: \$1: he and spouse Patricia enjoyed eating Mike's epicurean delights

President CHARLIE BELLOMO: \$2: liked Mike's special herbs and spices that made the hot "yummy."

**PROGRAM: Local FBI Agent Barry Couch: "Cyber theft"**

*Note: Barry's dad was a member of the Tyler, Texas Rotary Club.*

The FBI's major thrusts are national and go beyond individual state borders: 1) emerging threats to national security, plus 2) Internet crimes: Barry focused more on Internet crime and threats because they occur mostly sight unseen until the damage is done. For example:

- credit card theft
- phishing: seemingly valid requests from known organizations (banks, US Govt, business) whose logo and/or letterhead has been stolen, then duplicated and used to send what appears to be legitimate requests for information like birth dates, social security number, checking account number. If specific information is sought from an unsolicited request, that's probably phishing.
- Ebay imitators
- Hackers: used to "hack" as a challenge, now they want real information.
  - Could be disgruntled employees
  - Ages range from kids to retirees

**How to protect yourself when you use your computer:**

- Install good anti-virus, firewall, anti-spyware
- Make your password 12+ mixed characters long
- Turn off your preview window on email
- Purchase an inexpensive brand new computer to conduct any on-line financial transactions so that it can't be corrupted by unlimited exposure to searches and other personal uses
- Back up regularly
- Be careful of conducting online relationships with someone you have never met.
- Want to report a SCAM: go to [www.IC3.gov](http://www.IC3.gov). It is the Internet Crime Complaint Center.

Also, visit [www.INFRAGARD.net](http://www.INFRAGARD.net): InfraGard is an association of businesses, academic institutions, state and local law enforcement agencies, and other participants dedicated to sharing information and intelligence to prevent hostile acts against the United States

**Note: child pornography is prevalent on the Internet. Advice to parents and grandparents:**

- Educate your children about how to use computers, cell phones, ipads.
  - Restrict their use to family rooms with the screens facing the center of the room rather than in their individual rooms.
- When in doubt and fearful about a SCAM, Barry invited attendees to phone the local office of the FBI: 585-546-2220. If whatever is reported is not in their jurisdiction, they will direct the caller to the correct agency.

**The Joker** worth \$300 eluded President Charlie who won \$10 in today's 50/50.

**NEXT WEEK, August 9:**
