Presentation:

Kevin Best and Andy Cummings of Best Times Financial Planning spoke about Parent Care 360. It is a program that starts with having the conversation between older parents and their grown children about what plans are made for the parents' future care.

Some important points are: that 9.7 million people over 55 provide care to an older person, 83% of those contribute financially, 44% had to work fewer hours.

Important documents to prepare while you are healthy are your Will, Power of Attorney, Health Care Proxy and Living Will. Two members told horror stories about relatives whose documents had not been updated or were not in order

The Joker eluded JOE BEST who took home \$10, but left \$400+ for another week.
