An interesting program on a new Venturing Club which is associated with the Boy Scouts of America but is open to boys and girls ages 14 -20. Its purpose is "Guided Discovery." The organization is broken up into "Crews" whose goals are: Experience, Development, Leadership, Growth and Being Active and they are youth-led and they make all the decisions. Built in are various Awards programs. Currently they have 16 registered participants in this "Crew" with more ready to come into the program. There are several other "Crews" in this area.
