**PROGRAM: Beth Gillis: “Last year in Hungary as a Rotary Exchange Student”**

Beth returned to Penfield on June 27, extremely pleased with her year in Hungary. Beth sought out a youth exchange experience and found out about Rotary’s on the Penfield Rotary Website. She had completed her Webster High School requirements by the end of her junior year. Beth lived in Miskolc, population about 150,000, She stayed in one family for the year, like “Grand Central” because it was a welcome place to be. Her host father is a veterinarian. Her Rotary Club hosted four students (Canadian, America, Australian, Argentinian). She attended meetings almost every week, went to a hockey game, took music lessons, experienced only ten days of snow, with none on Christmas. Beth is a vegetarian, but her father hunted for a turkey which she prepared around Thanksgiving time. Her takeaways:

1. can’t always fight, because countries and peoples differ culturally;
2. her two most asked questions: America’s drinking age (older than Europe) and gun laws;
3. learned a language, made new friends, travelled throughout western Europe, became more self-responsible;
4. Hungary and other Iron Curtain countries are about ten years behind the US in products on their store shelves.
5. experienced the culture of living in a 1,000 year old country.
6. Never say no to a legitimate opportunity
7. Be generous with your time
8. “I don’t know the word for “hate” in Hungarian—there was no reason for me to learn it.”

Beth begins college at Case Western in August. Visit Beth on Facebook for photos taken throughout her year: [www.Facebook.com/BethGillisz](http://www.Facebook.com/BethGillisz)
